

Merit Bank Capstone

Group 2 – Irina (Team Lead), Ivelis, Angela

Week 16 Work breakdown structure

Planning

- initial Sprint meeting: Saturday 7-17-2021
- sprint meetings to be every other day
- first free docs (wireframe, class diagram, high-level architecture) are assigned to everyone to get some practice and to brainstorm

Work breakdown

Irina:

- create and manage GitHub repo for Capstone
- set up Jira account
- create and manage Scrum board
- update Jira stories
- invite team members to GitHub and Jira
- create High-Level Architecture Diagram
- create RESTful API Design doc
- review and adjust all diagrams if needed

Ivelis:

- create Entity Diagram
- help with brainstorming on Wireframe design

Angela:

- create Wireframe design
- create Class design

Review

The Initial Sprint meeting was Saturday 7-17-2021. All team members attended. Team discussed weekly tasks, Jira board and expectations. During the week team met up several times to discuss the progress. Team also met up to work together on the wireframe docs. After reviewing the work, team leader talked to the team members individually about the necessary adjustments to the diagrams. Team used slack and zoom extensively to discuss the issues and progress. All documents were completed on time. Everyone did a great job!
